太田看護専門学校

Ohta Nursing School

建築概要: 主要用途 main use: 看護専門学校 nursing school

 敷地面積 site area
 : 3,918.80㎡

 建築面積 building area
 : 2,045.25㎡

 延床面積 total floor area:
 3,807.50㎡

掲 載 誌:新建築2002年5月号, GA JAPAN 56号, 建築文化2002年6月号

ルーフテラス roof terrace

コンセプト concept

この建物は郡山市の医療の中核を担う太田綜合病院附属の看護専門学校である.ここでの看護教育は,学校での講義と実習,病院での実習・研修の2つの柱で構成される.敷地の北側には,公共緑道(せせらぎ小道)があり,4mの高低差のある坂道になっている.学生は,せせらぎ小道を通って病院へ通う.本来3階建になるはずだが,載帽式でキャンドルサービスを行う講堂などを半地下に埋設し,全体として2階建に見せることによって,周辺住宅地に馴染ませ,さらに北側平面を凹曲面状にすることによって,緑道への日照を確保し,開放感を損なわないように配慮した.スロープは外観でも視覚化され,内部ではスロープに沿って,吹抜け空間が,2階から1階へ水が流れるように広がる.その屋根は,耐火塗料を施した,厚さ9㎜のフラットバーの連続梁で構成され,「光の襞(ひだ)」をつくる.せせらぎ小道が内部まで連続しているような,「道」をつくることによって,開放的な教育空間になっている.

This building is the Nursing School affiliated to OHTA General Hospital, which serves as the backbone for medical care in Koriyama city. Nursing education here consists of two principles: Lectures and Practice in the school, and Practice and Training in the hospital. At the north side of the site, there is a public greenway called Seseragi alley which means a babbling stream. This is a slope with four-meter difference in elevation. The students walk across the alley to go to school at the hospital. The building has three stories and is constructed to have the appearance of a two-story building by arranging the auditorium, where a candle-lit service is held for the capping ceremony, at the semi-basement level. Such a structure secures sunlight for the greenway and presents an open environment by coordinating the buildings appearance with the surrounding residential district and forming a concave curve on the northern plan. The appearance of the slope is visualized. In addition, there is an atrium extending from the second floor to the first floor along the slope, which represents an image of water running. The ceiling of the slope is supported by continuous beam made of 9 mm thick flat bars coated with fireproof paint, which casts "stripes of light." This architecture is produced with arrangement of the road as if the green alley was extended into the architecture.
